## EYES ON WASHINGTON

Street Takes Favorable View of Day's Events in the Capital.

NEW YORK, March 16.—The improved tone of the stock market today did not mean that there was any substantial widening in the dimensions of the market. Such activity as there was came in occasional spurts, and it was largely confined to a few stocks. A favorable view was taken of the course of events at Washington as giving promise of removal of obstacles in the way of progress with the tariff revision, such as the threatened controversy over the rules might have been. The financial element regards expedition in the work of fixing the new tariff schedules as desirable above everything else.

United States Steel was quite conspicuous in the light of buying stocks, that issue having been a favorite medium for speculation based on the possibility of the effect of the new tariff bill. Amalgamated Copper shared quite fully in the strength of United States Steel, and was not hurt apparently by apparent reduction in copper metal prices here and in London. Price reductions both in copper and steel must bring the level ultimately to a point where consumers will abandon their abstention and begin to buy. Lately there is growing up a disposition to look upon successive price cuts as steps toward this end.

**Weakening Effect.**

Reports of a further issue of Atlantic bonds were imminent, and had some weakening effect on existing issues of that company and served to illustrate the state of affairs in that regard.

Reports of more mining of anthracite coal in preparation for a possible strike seemed to appeal favorably to buyers of Reading, Union Pacific, and its usual leadership in the movement of railroad stocks. The market at the close was the strongest and most active of the day. Bonds were irregular. Total sales, par value, \$2,530,000. United States bonds unchanged on call.

Total sales of stocks to-day were \$75,900 shares.

**NEW YORK, March 16.**—Money on call easy, 1-2-3/4 per cent; ruling rate 1-2-3/4 per cent. Time loans very dull, with softer tendency; sixty days, 2-1-2 to 2-3-4 per cent; ninety days, 2-1-2 to 2-3-4 per cent; six months, 2-3-4 to 3 per cent. Prime mercantile paper, 1-1/2-1-3/4 per cent. Sterling exchange steady, with actual sterling in bankers' bills at \$4.8625 for sixty day bills, and at \$4.8825 for demand. Commercial bills, \$4.8625-4.8825. Bar silver, 50-3-4.
